

Senegal

Update on Progress

- ★ MCC and the Government of Senegal continue to collaborate on design and assessment of a program which will address key constraints to Senegal’s development, and that will promote poverty reduction through economic growth.
- ★ In July 2008, Senegal’s MCA entity (MFG-MCA), submitted four concept papers for MCC’s consideration. These concept papers described potential investments in four sectors: road transportation; irrigation and water resource management; energy; and institutional reform.
- ★ In October 2008, the MCC Senegal transaction team completed a peer review of the Government of Senegal’s Concept Papers. The peer review affirmed the transaction team’s recommendations to continue Pproject development on six of the proposed projects (two roads, three irrigation projects, and one judicial reform project).
